

Watermelons!

1. Watermelon 1 weights 7.35kg. First you have to convert it into g, so you have to x by 1000.

T	H	T	U	.	T	H
			7	.	3	5
7	3	5	0			

Watermelon 1 weights 7350g, so watermelon 1 gets 7350 points.

2. Watermelon 2 weights 8.20kg. First you have to convert it into g, which means you have to x by 1000.

T	H	T	U	.	T	H
			8	.	2	0
8	2	0	0			

Watermelon 2 weights 8200g, so watermelon 2 gets 8200 points.

3. In the end watermelon 3 weights 6.45kg. First you have to convert into g, so you have to x by 1000.

T	H	T	U	.	T	H
			6	.	4	5
6	4	5	0			

Watermelon 3 weights 6450g, so watermelon 3 gets 6450 points.
