

# 'What's it Worth?'

$$\begin{aligned} \square + \triangle &= 14 \quad (1) \\ 3\square + \triangle &= 30 \quad (2) \end{aligned}$$

$$(2) - (1): 2\square = 16$$

$$\underline{\underline{\square = 8}}$$

$$(1): 14 - 8 = 6 = \underline{\underline{\triangle}}$$

$$\diamond + \square = 15$$

$$15 - 8 = 7 = \underline{\underline{\diamond}}$$

$$3\circ + \square = 20$$

$$(20 - 8) \div 3 = 4 = \underline{\underline{\circ}}$$

$$\triangle + \diamond + 2\circ = \underline{\underline{21}}$$

$$\begin{aligned} \square &= 8 \\ \diamond &= 7 \\ \triangle &= 6 \\ \circ &= 4 \end{aligned}$$
