Stage: 1 Challenge Level: 1

This challenge is about counting on and back in steps of 1, 10 and 100.

Roll a dice twice to establish your starting number - the first roll will give you the tens digit and the second roll will give you the units digit.

You can then make five jumps to get as close to 50 as possible.

You can jump forwards or backwards in jumps of 1 or 10 or 100.

Compare your strategy with a friend.

Did you jump forwards  backwards?

Can you land on 50 exactly?

How far from 50 were you?

Could you do it another way?

Could you get even closer?

Which numbers can get you to 50?

Which can't?

For example: I roll a dice and get a 3, then a 4, so my starting number is 34.

I make the following jumps to get as close to 50 as possible:

Starting number is 34

Jump one is +10 to get me to 44

Jump two is +10 to get me to 54

Jump three is -1 to get me to 53

Jump four is -1 to get me to 52

Jump five is -1 to get me to 51
