

Hi, my name is Kenton!

age 10 columbus OH. I have figured

out that some of the best

questions to ask are... does

your shape have triangle faces?,

does your shape have rectangle

faces?, is your shape a circle?, how

many sides are there?, does your

shape have all triangle faces? etc...

One time me and my partner both

picked the same shape! that was cool

I like this game a lot! I hope you

do too!!! 😊 - Kenton [REDACTED]
