18/11/15

Make 37

4 bags contain a large number of 1, 3, 5, 7s:

1
1
1

3
3
3

5
5
5

7
7
7

Pick any ten numbers from the bags so that their total is 37.

I couldn't do it and I know that odd numbers added up in any combination will make an even one.
