

1. The coordinates of the center of box 3 is (8,4)
2. The coordinates of the center of box 20 is (12,31)
3. Starting at box 1 move the center dot three to the right and 1 up to get the center of the next box
4 boxes, this would still work because you just need box 1 to use the table
5. Forget the center from the center dot do 1 right 2 up for top right, Do 2 left, 1 up for top left
Do 1 down, 2 right for bottom right, Do 2 down, 1 left for bottom left.
