

# Shape X Shape

We started by working out the first three but we realized that the numbers we had did not work for the third one

## Missing numbers

~~2~~ ~~3~~ ~~4~~ ~~5~~ ~~6~~ ~~7~~ ~~8~~ ~~9~~ ~~10~~ ~~11~~ ~~12~~

hm they are odd and they are prime numbers

We wrote random numbers to start then we kept on changing the numbers to match the sum then we finally got it

When we were changing the sum we started to realize that we were getting it right.
