

Bar Chart showing the animals from the sea level and seabed

21.09.23

Sea Level

Farah chatoo

1. 4m

2. -9m

3. 2m

4. 7m

5. 4m

6. 7m

7. How far is the crabs head to the top of the light house
15m

I arrived at my answer by first marking the sea level and then above the sea level I wrote positive numbers and below I wrote negative numbers. Next I drew a line from the animals mouth to the metal line.
