

WINNING THE LOTTERY

A) 1 number From 4

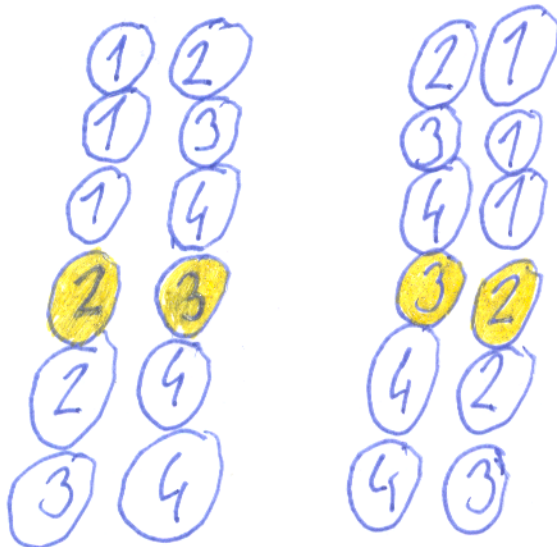

probability to win is $\frac{1}{4}$ (25%)

In the lottery simulator we got 27%, 24%, 25%

B) 2 numbers From 4

my ticket is (3)(2)

All possibilities (12 combinations, 2 winning)

probability to win is $\frac{1}{6}$ (16-17%)
